OBJECTIVE

I am Vinay Krishna Bhat. I am interested in new technologies like machine learning ,Web Development , Blockchain and aspiring to be a software developer, managing business requirements . I aim to be a part of a reputed firm driven by technological and work ethics. I would like to launch and implement business projects and help find technical solutions.

PROJECT

AI & ML mini project in sales prediction

Algorithms: Linear Regression and Polynomial Regression model

Description: Project focused on analyzing sales data from Jio SmartMart, applying machine learning techniques to predict prices based on various factors. The insights gained from this analysis can be valuable for understanding product performance, optimizing inventory, and targeting specific customer segments.

TECHNICAL SKILLS

- C programming (Basic)
- HTML and CSS (Intermediate)
- SQL/NOSQL (Intermediate)
- MS Office (Basic)
- Python (Intermediate)
- JAVA (Basic)

EDUCATION

Master of Computer Applications

Dayananda Sagar College of Engineering completed By 2024

Bachelor of Science

JSS Banashankari Arts, Commerce and S k Gubbi Science College Dharwad
Karnataka University Dharwad

Pre - University College

YTSS Yellapur Karnataka State Bord completed in 2019

CERTIFICATIONS

- Python in Data science certification by IBM
- Database management & SQL certification
- Computer course: Basics of computer skills and MS Office
- Introduction to UNIX certification by Infosys Springboard
- Blockchain in Depth certification by Infosys Springboard
- Project Development Using java for Beginners

VOLUNTEERED
